Office Action Summary

Application No.

10/829,338

Applicant(s)

LING, RENNY TSE-HAW

Examiner

Lloyd A. Gall

Art Unit

3676

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 01 April 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 12-14, 17 and 19-35 is/are pending in the application.
- 4a) Of the above claim(s) 22, 23, 25, 26, 30-32 and 34 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 12-14, 17, 19-21, 24, 27-29, 33, 35 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 22 April 2004 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

At the outset, in response to the election and amended claims filed on April 1, 2005, applicant should note that the new listing of claims has skipped claim 24. Accordingly, newly filed claims 25-36 are regarded in this Office action as being claims 24-35, and the dependency of each claim is also changed to reflect the claim re-numbering. Any future amendment filed by applicant must acknowledge this, and the claim numbering and dependency of each claim must be changed by applicant.

Applicant's election of figure 10 in the reply filed on April 1, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

In response to the REMARKS/ARGUMENTS filed on April 1, 2005, the figure 11 embodiment only, in addition to the elected figure 10 embodiment, will be examined on the merits.

Claim 17 is objected to because of the following informalities: In claim 17, lines 1-2, there is no antecedent basis for "the connection wire". Appropriate correction is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3676

Claims 12-14, 17, 19-21, 24, 27-29, 33 and 35 are rejected under 35

U.S.C. 102(b) as being anticipated by Bennett (465).

Bennett teaches a branched wire lock including a trunk wire 12 having first 52, 53, 54 and second 30, 38 coupling sections at its ends, the coupling sections being capable of being anchored to an anchor object 102, and multiple branch wires 70, 90 each having an annular ring 78 to couple with the trunk wire and a lock head 80 at its other end.

With respect to claims 13 and 14, the coupling sections include an annular ring 54 and a lock head 30, 38. With respect to claims 19 and 20, elements 38, 22, 30 may be regarded as a jack lock or a lock head.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 19, 27 and 28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bennett (465) in view of Derman (734).

Derman teaches a lock jack 9 capable of being locked within a computer, used with multiple wires 7, 3. It would have been obvious to one of ordinary skill in the art at the time the invention was made to substitute a computer lock jack for the lock jacks 80, 30, 38 of Bennett, in view of the teaching of Derman, the motivation being to simplify locking into a computer.

Art Unit: 3676

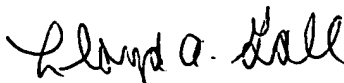

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Devecki teaches a trunk wire 50 used with multiple branch wires 18 and locks 24. Huang teaches a trunk wire 12 and a branch wire 131.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lloyd A. Gall whose telephone number is 571-272-7056. The examiner can normally be reached on Monday-Friday, 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bagnell can be reached on 571-272-6999. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
